

A DIFFERENCE YOU CAN TASTE

REAL FLAVOR FROM REAL TIME

Diestel turkeys are given extra time to grow and develop flavor naturally - an extra two months with no growth stimulents and absolutely no animal by-products.

FEED FROM OUR MILL

Diestel turkeys are fed corn & soybeans milled on our ranch and free of animal by-products, growth stimulents & hormones. By avoiding commercially pre-mixed feed, we can specially formulate the feed to meet our bird's nutritional needs.

ROOM TO ROAM THE RANGE

Diestel turkeys enjoy the freedom to roam the clean Sierra Foothills in northern California. Providing individual care in a wholesome environment, our ranch has plenty of fresh air & clean mountain water.

A TENDER & JUICY TURKEY WITH OLD-FASHIONED FLAVOR

A Diestel turkey is consistently better - tender & juicy with old-fashioned turkey flavor you can really taste. Our broad-breasted turkeys provide excellent value with more meat, less fat and less water than a commodity bird.
