

A DIFFERENCE YOU CAN TASTE

REAL FLAVOR FROM REAL TIME

Diestel turkeys are given extra time to grow and develop flavor naturally - an extra two months with NO growth stimulents and absolutely NO animal by-products.

FEED FROM OUR MILL

Diestel turkeys are fed corn & soybeans milled on our ranch and free of animal by-products, growth stimulents & hormones. By avoiding commercially pre-mixed feed, we can specially formulate the feed to meet our birds' nutritional needs.

CALIFORNIA GROWN

Diestel turkeys are big, bold, mouthwatering birds range from 6-30 pounds, every one of them packed with flavor. They're raised in a wholesome, nourishing environment with access to fresh water and clean air rolling off the Sierra Nevada Foothills.

A TENDER & JUICY TURKEY WITH OLD-FASHIONED FLAVOR

A Diestel turkey is consistently better - tender & juicy with old-fashioned turkey flavor you can really taste. Our broad-breasted turkeys provide excellent value with more meat, less fat and less water than a commodity bird.
